Anti-lock Braking System (ABS) & Electronic Brake-force Distribution (EBD)

Take full control at all times with enhanced stability and optimised stopping efficiency.

Active Stability Control (ASC) with Traction Control (TC)

ASC automatically applies brake-force to maintain control. Traction Control maintains grip on slippery or rugged surfaces.

Hill-start Assist (HSA)

Prevent backward rolling on inclines via automatic brake-force before accelerator is applied

Brake Assist System (BAS)

The XPANDER instinctively applies added brake force during emergency situations.
